ORDER

Adopted: March 14, 2008**Released: March 14, 2008**

By the Deputy Chief, Wireline Competition Bureau:

1. On November 20, 2007, the Commission released a notice of proposed rulemaking in the above-referenced proceeding, which set forth a due date for comments of 30 days after publication in the Federal Register, and a due date for reply comments of 60 days after publication in the Federal Register.¹ Due dates were established as March 7, 2008 and April 7, 2008 respectively.² For reasons set forth below, we extend the time for filing reply comments by 15 days, until April 22, 2008.

2. On December 21, 2007, Virginia Electric Power and Light (Dominion Power) and Ameren Corporation (Ameren) filed a Motion for Extension of Time, requesting that the due date for comments be extended until 90 days after publication of the Notice, and that the reply comment deadline be further extended until 120 days after the proposed date for filing initial comments.³ Dominion Power and Ameren argue that the scope of the Notice is vast, and that it includes broad questions that will require parties to compile, analyze, and submit a substantial amount of data and other information.⁴

3. On February 12, 2008, Florida Power & Light Company, Tampa Electric Company, and Progress Energy Florida (the Florida IOUs) filed a Motion for Extension of Time, requesting that we extend the deadline for comments until 60 days after publication of the Notice, and that we postpone the reply comment due date until 60 days after the date for filing initial comments.⁵ The Florida IOUs state that more time is needed to collect evidence for submission which speak to the issues raised in the Notice, and argue that the complexity of the issues and stakes involved, specifically concerns about safety and

reliability, warrant an extension of time.⁶ Oncor Electric Delivery Company and Southern Company filed Motions to Join Motion for Extension of Time on February 14, 2008 and February 21, 2008, respectively, both supporting the schedule proposed by the Florida IOUs.⁷ Utilities Telecom Council (UTC) also supports an extension of time, seeking a comment date of 60 days after publication of the Notice, and suggests deferring action on the extension of time for replies until the initial comments have been filed.⁸ UTC points out that the many questions posed in the Notice raise difficult issues requiring extensive research and data collection.⁹

4. United States Telecommunications Association (USTelecom) and Sunesys, LLC (Sunesys) each filed Oppositions to the Motions for Extension of Time on February 15, 2008 and February 22, 2008, respectively.¹⁰ USTelecom argues that the timing of Federal Register publication has effectively given the additional time requested for filing comments.¹¹ Sunesys argues that the Commission initiated this proceeding to address access delays, and delay here would simply further slow down broadband deployment; that the Notice was not released until almost two years after Fibertech's request; and the timing on the issuance of the Federal Register publication gave utilities ample time to prepare their responses.¹² Sunesys also states, however, that it might be appropriate to consider extending the deadline for reply comments after initial comments have been filed.¹³

5. Although requests for extension of time are not routinely granted,¹⁴ we do occasionally grant limited extensions of time when an extension would serve the public interest. In this case, we agree with USTelecom that the timing of Federal Register publication gave parties additional time to prepare and submit their initial comments, and that the lengthy extensions requested are unwarranted. We recognize, however, that the Notice raises numerous and complex issues and that many stakeholders have filed commensurately detailed and closely-argued initial comments. We find that, on balance, a 15-day extension of time will give parties sufficient time to prepare and file reply comments without significant loss of momentum in addressing the issues, and is therefore reasonable and in the public interest. Thus, reply comments in this matter shall be filed on or before April 22, 2008.
